

LED OUTDOOR

Illuminate your home beautifully, affordably, and with care for the environment with Melissa Lighting's line of LED outdoor fixtures.

TOMORROW'S OUTDOOR LIGHTING – TODAY!

Melissa Lighting brings its long-standing reputation for unparalleled craftsmanship to its new LED product line. All our fixtures are assembled and made to order in the USA. Our unique manufacturing process allows us to offer all of our existing styles of fixtures equipped with this new LED technology. Simply select the style you like, choose one of our 53 hand painted colors from our online catalog, specify your preference for LED technology, and let us do the rest!

WHY LED?

- Extremely low power consumption, saving you on electricity
- Energy is efficiently converted to light, not heat
- Extremely long life span (50,000 hours)
- Unlike fluorescents and HID light sources, LED's turn on instantly at full brightness
- Environmentally friendly – no mercury or toxins, recyclable

WHY MELISSA LIGHTING?

- Most extensive selection of outdoor LED lighting
- Complete families of fixtures in multiple sizes and styles so all your fixtures will match
- Post lights in multiple sizes
- Hanging fixtures in multiple sizes
- Huge selection of 53 hand painted colors available on any style of your choosing
- Warranty 50,000 hours on LEDs and 2 years on driver
- Dark sky compliant
- Made to order to your specifications in the USA!

COMPARISON OF FEATURES

LED OUTDOOR	50,000 HOURS	LIFE SPAN	1200 HOURS	100 WATT INCANDESCENT
	6	WATTS PER BULB	100	
	360	KWh OF ELECTRIC USE OVER 50,000 HOURS	3,600	
	\$5.26	ELECTRIC COST @ .12¢/KWh	\$226.15	
	\$220.89	TOTAL SAVINGS	\$0.00	
	1	BULBS NEEDED FOR 50,000 KWh	50	

FREQUENTLY ASKED QUESTIONS

1. What is the color of the LED light like?

Melissa lighting uses only highly engineered, high brightness, American made CREE LED's. Our LED products offer a Color Rendition Index (C.R.I.) of 80 and a Kelvin temperature of 3500. These specifications ensure a pleasing white, natural light that flatters colors, architecture, landscaping and skin tones.

2. What about replacement "bulbs"?

No bulbs necessary! The LED module comes factory installed into the fixture and is expected to last for 10 years or longer. If in the future you should find your LED module has reached the end of its lifespan simply contact Melissa Lighting for a replacement module, which you can easily install into your existing fixture.

3. Where can I find the Melissa Lighting catalog of LED fixtures?

As part of our continuing commitment to environmental conservation, we are not having a separate catalog printed. All of the styles you see in our current catalog are available with the LED option. Simply choose your fixtures from the existing catalog and specify LED when ordering. We'll take it from there!

WHAT'S AVAILABLE IN LED'S

***99.9% of all Melissa Lighting fixtures are now available with 6 watt LED's**

**[except the GS3, GS4, GL3, GL4]*

HOW TO ORDER
